SPEC ID       : QLA-BP-000000002305                                  RESONANCE     : 9.3 / 10.0 CR
ATTRIBUTED TO : Hardy Blechman & Pacifist Military Guild               CALIBRATED    : 2026-11-08
NODE ENDPOINT : https://qualia-teal.vercel.app/idea/b0000000-0000-0000-0000-000000002305
```

DPM Carbon-Negative Shell

[THE MECHANICS:]

The architecture integrates a decentralized, localized upcycling pipeline that captures expired military-issue Kevlar-aramid and ballistic nylon gear, mechanically shredding the dense matrices into high-tensile staple fibers. These recycled military-grade filaments are blended with certified organic Himalayan hemp and raw Scottish wool, then spun into a dense, water-resistant yarn using low-energy ring-spinning techniques. The resulting heavy-duty tactical fabric is woven into an all-weather modular field parka featuring Maharishi's proprietary Snobutton and Temple Bead cord-lock adjustment systems, entirely removing petroleum-based hardware from the garment construction.

Each parka contains an embedded, unpowered Near Field Communication microchip enclosed within a hand-embroidered Phoenix or Dragon motif on the interior storm flap. Scanning the chip redirects the wearer to a cryptographic ledger verifying the provenance of the exact military surplus batch used to construct their garment, alongside an immutable smart contract. This contract yields annual carbon-offset credits generated by the hemp agricultural supply chain, which can be directly traded on-chain or redeemed as store credit for future seasonal drops.

[UTILITARIAN VALUE:]

This architecture bypasses traditional virgin textile supply chains entirely, slashing material procurement overhead while commanding a luxury price point through verified historical upcycling. The inclusion of blockchain-backed provenance transforms a static outerwear piece into an appreciating physical asset, driving secondary market capture and securing elite retention among environmentally conscious collectors.

[TARGET ECOSYSTEM:]

Conscious archival fashion consumers and urban utilitarian specialists operating within high-density metropolitan environments.
