Sub-Orbital Flux Resonator

[THE MECHANICS:]

A dual-topology Eurorack and desktop performance core pairing a cryogenic Gallium Arsenide diode mixer with an analog bucket-brigade feedback resonator and discrete optical touch pads. It captures transient sub-harmonics, derives Doppler-shifted stereo reflections, and modulates pitch via galvanic bio-impedance without digital latency.

[UTILITARIAN VALUE:]

Tactile aerospace Doppler spatialization, non-linear harmonic saturation, and galvanic touch control for live Eurorack performance.

[TARGET ECOSYSTEM:]

Endorphin.es modular rigs (Ghost, Furthrrr Generator, Queen of Pentacles), live techno performance hardware.
