# Sub-Zero Cryo-Botanical Amaro Concentrate & Bar Draught System

**[ THE MECHANICS: ]**

An ultra-concentrated cold-vacuum distillate derived from wild wormwood, gentian root, saffron, and fermented hemp terpenes engineered specifically for nitrogen-pressurized bar draught dispensers and pocket apothecary dropper vials. Removing excess thermal cooking preserves volatile bitter sesquiterpenes that normally flash off during boiling, enabling bartenders to micro-dose intense herbal complexity over soda, espresso, or fermented citrus bases at one-quarter ounce per serve. The reusable matte-amber stainless cartridge system slashes glass shipping weight by 68 percent across regional hospitality accounts.

**[ UTILITARIAN VALUE: ]**

Expands on-premise cocktail velocity and high-margin backbar economics by cutting prep time to three seconds per pour while delivering sharper bitter aromatic bite than sugar-heavy zero-proof cordials.

**[ TARGET ECOSYSTEM: ]**

Late-night listening bars, craft cocktail apothecaries, festival hospitality lounges, and zero-proof dining programs.
