Brass-Bound Physical Thought Cabinet & Diegetic Story Deck

[THE MECHANICS:]

A heavy linen-and-brass folio housing 72 letterpress-printed cognitive cards, anodized skill tokens, and a mechanical probability dial that simulates internal psychological arguments during solo or group tabletop sessions. Each card includes slotted diegetic overlays that physically alter character traits as ideas are internalized or discarded.

[UTILITARIAN VALUE:]

Creates a high-margin physical collector artifact that bridges tabletop roleplay and literary worldbuilding, giving fans a standalone physical Thought Cabinet engine with zero digital DRM.

[TARGET ECOSYSTEM:]

Narrative RPG enthusiasts, literary fiction readers, boutique tabletop designers, and art-book collectors.
