SPEC ID       : QLA-BP-000000004001                                RESONANCE     : 9.8 / 10.0 CR
ATTRIBUTED TO : Waldorf Music Engineering Team                     CALIBRATED    : 2026-11-13
NODE ENDPOINT : https://qualia-teal.vercel.app/idea/b0000000-0000-0000-0000-000000004001
```

Magnetic Harmonic Exciter & Hybrid Wavetable Resonator Strip

[THE MECHANICS:]

A brushed-steel desktop expressivity bar housing eight hall-effect magnetic force strips and a discrete analog diode-bridge harmonic folder wired via high-speed TRS/USB-C MIDI 2.0. Performers bend individual wavetable scan positions and resonator damping curves with millimeter physical travel while feeding external acoustic mics directly into the exciter core.

[UTILITARIAN VALUE:]

Opens a tactile MPE desktop controller and analog harmonic exciter expansion that pairs directly with Iridium and Quantum rigs, driving high-margin accessory attach rates across existing studio owners.

[TARGET ECOSYSTEM:]

Film scoring composers, electronic sound designers, hybrid hardware synth studios, and live electronic performers.
