Magnetic Espresso-Group Desk Dock & Mechanical Shot-Timer Stand

[THE MECHANICS:]

A 480-gram bead-blasted 316L stainless steel desk pedestal sculpted after a commercial espresso portafilter grouphead, featuring an angled Alcantara-lined watch saddle and an embedded mechanical 30-second flyback detent lever. Resting a Brew Metric chronograph into the cradle aligns the dial at a 42-degree ergonomic reading angle while a side-mounted stainless paddle actuates a crisp tactile clicker calibrated to 28-second extraction cadences. Crash-Test Unit Economics: Zero electronics, investment-cast + CNC finished steel body under $22 BOM at 250 units, and natural bundle upsell with Metric drops.

[UTILITARIAN VALUE:]

Crash-Test Spec: Transforms the signature 30-second espresso extraction chronograph into a weighted machined-steel desk sculpture and charging/display dock for specialty coffee bars, creating a high-margin crossover SKU with zero watch-case retooling.

[TARGET ECOSYSTEM:]

Specialty espresso baristas, industrial watch collectors, New York design studios, and precision coffee hardware buyers.
