Billet Aluminum Rally Dash Clip & Quick-Lock Cockpit Watch Mount

---

[THE MECHANICS:]

A CNC-machined 6061-T6 billet aluminum cockpit bezel bracket inspired by 1980s Group B rally roll-cage instrumentation, fitted with dual silicone-damped spring jaws and a quarter-turn dash/vent cam clamp. Drivers snap an Autodromo watch head or dedicated mechanical stopwatch module directly onto a dashboard bar or aluminum desk riser for vibration-isolated legibility during timed regularity rallies. Crash-Test Unit Economics: Simple 3-axis CNC billet profile with anodized finishes matching Group B dial colorways.

[UTILITARIAN VALUE:]

Crash-Test Spec: Extends the Group B integrated-bracelet geometry directly into classic rally cockpits and desk setups, capturing high-margin lifestyle collector revenue without diluting mechanical watch exclusivity.

[TARGET ECOSYSTEM:]

Vintage rally drivers, Porsche/Alfa Restomod builders, automotive industrial designers, and motorsport collectors.
