Acoustic Tuning-Fork Paperweight & Magnetic Brass Escapement Tray

---

[THE MECHANICS:]

A solid investment-cast C36000 brass valet tray milled with a cantilevered dual-tine acoustic fork along one rim and an isolated neoprene-damped base ring. Gently tapping the brass rim or dropping keys onto the inclined catch plate excites a warm, sustained 432 Hz resonant hum that decays organically over four seconds without electronics or moving wear parts. Crash-Test Unit Economics: Single-pour sand/investment casting plus one secondary CNC facing pass, yielding durable heirloom longevity and low defect rates.

[UTILITARIAN VALUE:]

Crash-Test Spec: Merges Craighill's signature heavy cast-metal desk presence with a zero-electronics kinetic acoustic chime, creating a flagship $95 -- $140 giftable flagship piece with minimal assembly complexity.

[TARGET ECOSYSTEM:]

Architectural studios, executive desk collectors, industrial design museums, and tactile hardware enthusiasts.
